Dynamite

...the millennial generation

Pese a su juventud, estamos frente a una experimentada formación que goza de una irreprochable reputación con tres temporadas consecutivas en Ibiza por demanda popular.
Los componentes tienen un dominio total de las armonías y sus cuatro registros se complementan magníficamente.
Hasta ahora nos han deleitado con repertorios clásicos de Motown, Soul y temas A Capella, y hoy nos presentan un show moderno con el pop de la *millennial* generación, repasando los éxitos actuales, ¡demostrando que la dinamita puede con todo!

Despite their youth this is an experienced formation that has earned an untarnished reputation over three consecutive seasons in Ibiza, having returned in each case by popular demand.
All members are true masters of vocal harmony and their four vocal registers complement each other perfectly.
While up until now they have delighted audiences with a repertoire of Motown, soul and acapella classics, they now offer a contemporary performance that features the very best in current hits and pop music for the *millennial* generation – pure dynamite!
